

THE REMNANT

Hi and thank you for helping to make my idea for The Remnant comic book a reality!

Enclosed you will find reference information for a character from our series. Using the information please prepare a 2-3 page script based on that character!

Again, Thanks for working with Grok! Comics. I look forward to seeing your creativity manifested!

PAGE 1

Have you ever noticed that adults are so obsessed with BULLYING?

They lecture about it, write books and make movies about it.

But there is one thing they can't do

STOP IT.

They think that doing all of these "awareness" cash grabs are doing some good, fulfilling some unspoken social responsibility.

But I don't think it's ever really sincere.

PAGE 2

I should know.

I'm a daily victim of it.

PAGE 3

If it's not bullying, then it's those who look on you with pity.

You know, the feel bad for the kid in the wheelchair look.

But I have an escape.

I may not have been gifted with working legs, but I was blessed with genius level intelligence and an aptitude to build things.

Like, I can almost build anything my mind can conceive.

PAGE 4

So I did what any Genius level disabled kid would do.

I built myself some legs...well sort of.
